*Capture the likeness, personality
and very essence of your pet with
an original oil painting

Pet Portrait Procedures

- ◇ The portrait starts with a photo and note taking session, which usually is about 30 minutes. At a later date the client will be able to review the photos and indicate their preferred choice.
- ◇ Then photos, notes and other information gathered will be brought together to capture the essence of the pet in oil.
- ◇ If it is necessary for the customer to provide photos, it is requested that extra photos be provided when possible. This will help with markings, coloring etc.
- ◇ Once started, a portrait will take approximately 4 to 6 weeks to complete. An approximate completion date will be given. However, it should be noted that the quality of the painting will never be sacrificed for the sake of the deadline.
- ◇ Standards will be maintained to produce a quality painting that stands on its own as a piece of fine art.
- ◇ Upon completion, assistance will be given in choosing a frame for the oil painting. At Creative Brush Studio there is a wide variety of quality frames from which to choose. This is the crowning touch for the portrait.
